

MS5202

DIGITAL INSULATION TESTER WITH PONITER

- Test of insulation resistance up to 100,000M Ω at 2500V
- Auto-ranging, LCD/pointer dual display
- High voltage output alarm
- Test button lock, double switch to avoid incorrect operation.
- Special airproof design to protect inner circuit from wet and corrosive air
- Auto discharge when test button released
- Self battery test
- Comforms to IEC1010, CAT.II 5000V

Technical specifications

Rated voltage: DC 2500V, $\pm 10\%$

Measuring range (auto):

0-2000M Ω /1000-100,000M Ω

Basic accuracy: $\pm 2.5\% \sim 5\%$ of arc

Insulation: 1000M Ω max./1000V

Battery: 1.5Vx8 (AA), 9Vx1(6F22)

Dimensions: 225x138x81mm

Weight: approx. 1200g (incl. batteries)

REF: 045202X0000

CE (EMC), UL, CE (LVD)

Sinometer
