

DM480C+

DIGITAL MILLI-OHM METER

- Large LCD display with backlit
- **4-wire test mode**, capable of testing extreme low resistance
- Accurate measurement of conductor, electric heating elements and solder point
- High measurement range of 0.01m Ω to 2k Ω at 6 ranges
- Data hold for easy reading
- Full protection, strong anti-magnetic and anti-jamming design
- Connection for external power supply

Technical specifications

Range: 20m/200m/2/20/200/2k Ω

Accuracy: $\pm 0.5\%$ rdg +3dgt

Resolution: 0.01m Ω

Measuring current: 100m/50mA

Sampling rate: 3 times/sec

Power: 1.5V battery x6, AA size;

or 9V DC power adaptor

Dimensions: 176x116x62.5mm

Weight: approx. 580g
